ABOUT ME

With 15 years in finance leadership, I bring exceptional analytical thinking, stakeholder management, and process optimization skills to frontend development. Throughout my career, I have developed strong analytical and leadership skills, which now complement my technical expertise in HTML, CSS, **JavaScript, React, and TypeScript**. This unique background enables me to create applications that balance technical excellence with business objectives

I excel at collaborating with cross-functional teams, ensuring that design, development, and business goals align to deliver user-centric, high-quality products. As a **team player**, I thrive in dynamic environments where **continuous learning and innovation** are encouraged. I am excited to contribute to projects that improve user experiences, streamline operations, and drive business growth.

HARD SKILLS
